POSITION

**LEAD – CHASSIS  
ENGINEERING**

MINIMUM EXPERIENCE

5 years

OCCUPATION TYPE

Full Time

JOB DESCRIPTION

Leading a small team of engineers, suppliers and engineering contract service suppliers. Responsible for evolving the Chassis concept for new Indi EV vehicles. Direct and Manage major subcontractors and suppliers for Chassis and Chassis Control Systems.

JOB REQUIREMENTS

- Knowledge of Chassis design and development best practice (minimum 5 years relevant experience).
- Preferred experience of working in a low volume / start-up environment
- Experience of managing relationships with Tier 1 and Engineering Service suppliers
- Understanding of the application of new generation manufacturing techniques to Chassis components
- Appreciation of Advanced Chassis Controls technology (direct knowledge preferred but not essential)
- Appreciation of design for Manufacturing & Assembly

WORKING AT INDI EV

Other than offering an endless supply of snacks and coffee, we provide our people with full medical, dental, and vision benefits. Work/life balance is also key, so we offer solid paid vacation time, and a compensated week off between Christmas and New Years. All jobs are located onsite at our headquarters in Los Angeles.
