

FOR IMMEDIATE RELEASE

INDIEV Joins the Beverly Hills Chamber of Commerce

August 5, 2022 - On Friday, INDIEV announced it has joined the Beverly Hills Chamber of Commerce. To commemorate the occasion and discuss how INDIEV and the Chamber can begin collaborating, Todd Johnson, President and CEO of the Beverly Hills Chamber of Commerce, visited INDIEV's flagship showroom, located on Bedford Drive in Beverly Hills.

The Beverly Hills Chamber of Commerce serves to connect local businesses with their neighbors, the local community at large, and officials within the Beverly Hills city government. The Chamber also aids businesses in the preparation of community and business events through networking, permit preparations, etc. In addition to networking events, the Chamber runs panels and committees, where INDIEV plans to work with these committees to encourage wider EV charging accessibility, green initiatives, and other plans to help continue to improve Beverly Hills.

INDIEV

FOR IMMEDIATE RELEASE

INDIEV recently joined the Beverly Hills Chamber of Commerce to better collaborate with and learn more about the local community. INDIEV opened the INDISpace, the company's flagship showroom and Brand Experience Center, in October 2021. Since then, INDIEV has seen tremendous growth in the scope of their operations and have held numerous community-oriented events in the INDISpace.

Johnson was given a tour of the showroom from management staff at INDIEV, including the community spaces where INDIEV invite Beverly Hills locals, as well as visitors and tourists, to gain further knowledge on the LA-local brand, create content, and build a community around individuality, creativity, and technology.

INDIEV staff and Johnson, discussed INDIEV's plans for upcoming events to be held at the INDISpace, as well as how INDIEV and the Beverly Hills Chamber of Commerce can best support one another. Being located in the 'Golden Triangle' gives INDIEV a unique opportunity to reach locals and out-of-state visitors alike, and INDIEV looks forward to future collaborations with the Chamber of Commerce, and further serving their local community.

About the Beverly Hills Chamber of Commerce

The mission of the Beverly Hills Chamber of Commerce is to empower businesses to thrive by being an invaluable resource for optimizing connections.

We serve the luxury capital of the world through marketing, advocacy and education for the Beverly Hills business community. The Chamber - with its committees, councils, staff and valuable members - works with city officials, local businesses and the community at large to promote the local economy.

The Chamber has been the voice of business in Beverly Hills since 1923. We are a membership organization comprised of hundreds of local businesses who believe in the importance of creating a solid foundation within the community. To accomplish our mission, the Chamber relies on the efforts of our members, our Board of Directors, volunteers and the generosity of companies who sponsor our events and programs.

The history of the Chamber goes hand in hand with the history of the City of Beverly Hills. Partners for over 85 years, the Chamber has been instrumental in the evolution of the City, both in its community and business landscapes.

About INDIEV

INDIEV was founded in 2017 on the idea that the future of personal mobility will no longer be defined solely by horsepower or top speed, but rather from the connectivity, customizability, and processing power offered to drivers and passengers. Currently, the gap between the level of computing power available to individuals on their phones and at home compared to their personal vehicles is astronomical.

INDIEV

FOR IMMEDIATE RELEASE

To this end, INDIEV invented the VIC - the Vehicle Integrated Computer. The Vehicle Integrated Computer, an incredibly powerful personal computer, gives users access to the same entertainment, productivity, and even Web3.0 access their home computing systems give them. By bringing the Internet of Things to personal vehicles, INDIEV want to help consumers broadcast their most authentic, individual self to the world around them, while providing an aesthetic, high-performance ride.

Based out of Downtown Los Angeles, INDIEV employs the most talented individuals from around the world across industries, demographics, and backgrounds. INDIEV looks to the future to inspire a new way of developing personal vehicles, all based out of the United States.

At INDIEV, We Do Cars, and You Do You.
